**Specialized Technical Training from Plan B**  
**Citrix CTX-1259BI: XenApp 4.5 / 5.0 Administration**

Enroll in the specialized Citrix training class featuring information about **XenApp 4.5/5** and become an expert in the complexities of this updated Citrix product! You'll experience a true blend of state of the art technologies and beautiful facilities at the Plan B training center in Bowie, Maryland.

**WHY ATTEND?**

Technical training for your design, implementation, and support engineers is critical to the success of your business. It's a fact that trained engineers are better able to manage the existing environment and utilize the products you have implemented to their fullest.

**THE COURSE**

This course provides the foundation necessary to effectively deploy and administer Citrix Presentation Server 4.5 and XenApp 5.0 for Windows Server 2003 and its components, including:

- Load Manager
- Installation Manager
- Web Interface
- Application Streaming
- Secure Gateway

**CLASS FORMAT**

Participants will receive hands-on training for installing and using the various administrative consoles to configure published resources, policies, individual server and server farm settings, load evaluators, isolation environments, printers, streaming applications and much more.

**WHO SHOULD ATTEND**

This course is intended for IT professionals, such as server, network, systems and help desk administrators familiar with Microsoft® Windows® environments. Systems engineers, analysts, consultants, and architects are also appropriate candidates for this course.
