(Bowie, Md...May 1, 2008) President **Donnie Downs** announced the establishment of **Plan B Government Systems, Inc. (PBGSI)** a service-disabled veteran-owned small business serving the federal, state and local government agencies nationally. "Plan B Government Systems, Inc. was developed to meet the growing demands and requirements of our government clients," said Downs. "We've leveraged the experience gained serving as the trusted advisor to several government agencies, and we are well-primed and excited to embark on this new venture – PBGSI."

PBGSI is a dedicated group of IT professionals serving federal, state and local government agencies. The company is headquartered at the Maryland Science and Technology Center located in Bowie, Md. adjacent to Plan B Technologies, Inc.

PBGSI has the contract vehicles underway to provide the agencies in the nation with the best solutions and support they need to effectively run their government organizations. "We will serve the government as their IT trusted advisors with the same commitment and values as the already established and award-winning Plan B Technologies, Inc." said Government Account Manager **Curtis Eshelman**.

"Now, more than ever, is the time to support our country, military and its governing bodies" said **Rick Marlowe**, Director of Professional Services. "From desktop to data center, security services to storage solutions, systems integration or project management, Plan B Government Systems, Inc. will provide government agencies the same level of service that our commercial customers receive and have come to expect.

"There is a growing demand from government agencies to manage their data more securely and effectively," said Chief Technology Officer, **Steve Taylor**, "and Plan B Government Systems, Inc. is the trusted advisor that can provide these solutions."
