

triCerat and Plan B Government Systems, Inc. Work Together to Simplify Government IT Departments

Columbia, MD – May 11, 2008 – Application Delivery solution provider, triCerat Inc, announced today that its user workspace Management Suite, Simplify Suite, including popular printing solution ScrewDrivers, will be listed on the federal procurement schedule of the General Services Administration (GSA).

The solutions will be added to the GSA schedule of one of triCerat's Gold Solution VARs, Plan B Government Systems, Inc. (PBGSI).

"triCerat continues to develop exceptional solutions to address everyday pain points of our local, state and federal government clients," said President of Plan B Government Systems, Inc. Donnie Downs.

"Our clients are looking to improve terminal server performance, solve remote desktop printing issues and most importantly reduce the overall complexity and costs of administering their infrastructure." Said PBGSI Sales Director Jim Egan. "The combination of triCerat's product line and PBGSI's experienced engineering services is undeniably valuable to the government community."

Simplify Suite addresses critical issues of the user experience to improve user productivity and reduce support calls while transforming the often complex and difficult Sys Admin tasks to a database driven, predictable framework that is perfect for simple maintenance and compliance demands.

triCerat's software management solutions enable you to hasten remote printing, shorten logon times, and lock down desktops more effectively than ever.
